From august 2017 until August 2018
- **Universal studios – Toothsome Chocolate Emporium – Team Captain**
From 2016 to August 2018

Projects

1. Wine & Dines

<https://andrewrb22.github.io/-theFederationOfCoders-/>

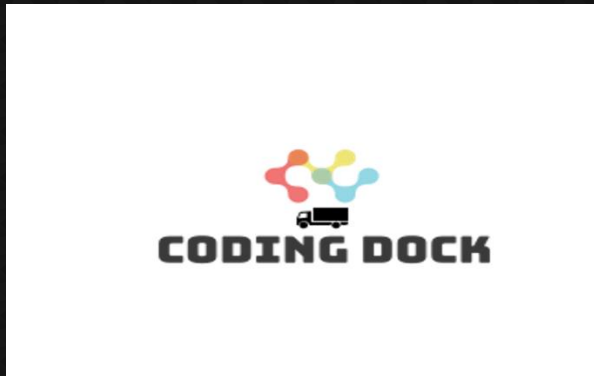

Summary:

In Wine&Dines, you will be able to pair food and wines withing seconds. Our app allows the user to select a protein of their choice and the option to buy a few wines by using two server-side APIs, a third-party CSS and JavaScript framework.

Responsibilities:

Getting the correct response from the APIs while making creating the front-end part of the project. Also, I was responsible for the design of the app visually.

2. Coding Dock

<https://projecttwoucf.herokuapp.com/>

Summary:

An MVC structure application for freelance Web Coders to search for gigs based on their coding language level by using Node Js, Express, handlebars, MySQL database, JavaScript, CSS Framework (Materialize)

Responsibility:

Created all the routes and models for the app (retrieving information from the database), as well as the front-end part of the app.
